Dear Neighbour,

East Midland Gateway – Contract C4 Kegworth Bypass

I am writing to give you an update re our planned works which may affect the local traffic network and journey times.

There are some key dates to which we need to draw to your attention.

Whatton Road Closure

Whatton road will be closed from 9th January 2018 until June 2018. The road will be closed at the points marked on the drawing on the reverse of this letter. This will mean there is no through road from Kegworth to Long Whatton and a diversion along the A6 London Road will be in place.

From Long Whatton there be access as far as Spring House Farm and from Kegworth there will be access as far as 121 Whatton Road.

A6 Traffic Management Works

A6 will have off peak alternate single lane running during December 2017 and January 2018.

A6 will have overnight closures from the 22nd to the 28th March 2018. Skylink buses will not be affected.

A6 roundabout completion date is April 2018.

During the time that the above works are being undertaken, we will endeavour to ensure that everything is carried out to make the process as neighbour friendly as we can.

Regular updates can be found at <http://slp-emg.com/community/> under the infrastructure and traffic & planning sections.

Should you have any queries or concerns, please let us know by email at kegworthbypass@buckinghamgroup.co.uk and we will ensure you receive a reply within 72hrs.

Yours Faithfully

On Behalf of
Buckingham Group Contracting Ltd
