

EMG TRAFFIC MANAGEMENT

CHURCH STREET JUNCTION - CLOSED FROM THE 18TH APRIL

Following consultations and a period of monitoring in conjunction with Leicester CC, Highway England and the local Parish that safety of the Church Street junction with the A50 will be improved by the closure of the gap which allows right turns to be made over the busy A50 North-West bound traffic. Therefore, Vehicles will be able to exit Church Street towards Derby only, vehicle access to Church Street from A50 will be as normal, until full closure.

Please **do not** use the Hilton Hotel access to U turn or short cut through the hotel access. Highways England are currently instigating a mandatory 'No U turn' regulation at this junction.
